Testimonial for Scott Robertson/Creative Concepts Remodeling, LLC

Scott Robertson has completed several sizable projects for our home over the past two years and I could not be more delighted with the beautiful results. We had significant wood rot issues with two areas of our home, and he meticulously restored the damaged areas and took measures to insure the damage would not reoccur (such as installing water shield and sealant) - which the original construction lacked. (Repairs also included installing a new kitchen window and new front door, threshold and trim – all of which are simply gorgeous)! With his extensive knowledge of his craft and a keen eye for design, his suggestions for finishing and reshingling areas of our projects look much better than the original design!

Scott's workmanship is impeccable and he cares about the quality of his work as if it were being done on his own home. You may be assured of the highest level of integrity, honesty and professionalism with Scott, as well as clear and uncomplicated communication. I am so pleased that I will never have to look any further for a master carpenter to complete work on our home. I highly recommend that you trust Scott for your next remodel, restoration or home improvement project.

Sincerely,

Rebecca A. Fortier
